		Topic			Points		Indicator	Evidence	Score Slovenia	Rationale
2	1	Implementation of the PSI Directive	1.1		0	are awarded when	the PSI Directive is not transposed, or the Member State is currently involved in an infringement procedure	Infringement procedures, Court documents		
3			1.2	or	50%	are awarded when	the PSI Directive is transposed correctly and the MS is not involved in any infringement procedures regarding the PSI Directive	Infringement procedures, Court documents	0	
4			1.3	a further	10%	are awarded when	the MS has transposed the PSI Directive, without incorporating any exceptions in the national legal framework granted to any of the main institutions that produce PSI (Meteo data, Traffic data, Cadastral Data, Company Data (Chambers of Commerce), Judicial Data (both court cases and laws)) concerned with the provisions of the PSI Directive	Policy documents, a list of these institutions for all MS will be drafted	0	
5										
6	2	The practice of re-use	2.1		20%	are awarded when	National law forces PSB's to allow Access and Re-use of all non-personal data by all.	Law	20	Law states in article 5: Applicants have free acces to public information and has the right, u the same conditions as all other persons, to re-use the information for commercial and non-commercial purposes
7			2.2	a further	15%	are awarded when	National law does not distinguish between commercial and non-commercial (and other types of) re-use.	Law	0	Law states article 34: The PSB may charge for the re-use of information for commercial purposes.
8			2.3	a further	15%	are awarded when	The Member State has implemented a redress procedure that can be invoked if a request for re-use is denied	law, annual report by redress institution	15	An information commisioner can be consulted (https://www.ip-rs.si/?id=195) when the body to reply within 20 working days to your request, when the body refuses access to specific information with a decision and when the body refuses re-use of information.
9			2.4	a further	15%	are awarded when	National law forces PSB's to publish all eligible datasets pro-actively, not just on request	law	0	Data only available upon request
10			2.5	a further	15%	are awarded when	National government supports exactly one standard licensing model	Official, currently valid, online available, policy documents	0	Data only available upon request
11			2.6	a further	20%	are awarded when	National government showcases the availability of Datasets through a National Data Catalog	link to datacatalog	20	http://www.ckijz.gov.si/index.php?id=35
12										
13	3	Formats	3.1		20%	are awarded when	National government policy officially supports raw data published in Open Formats	Official, currently valid, online available, policy documents	0	Not found
14			3.2	a further	30%	are awarded when	National Law demands that raw PSI is delivered in an Open Format	law	0	Not found
15			3.3	a further	20%	are awarded when	National government policy officially supports	Official, currently valid, online	0	Not found

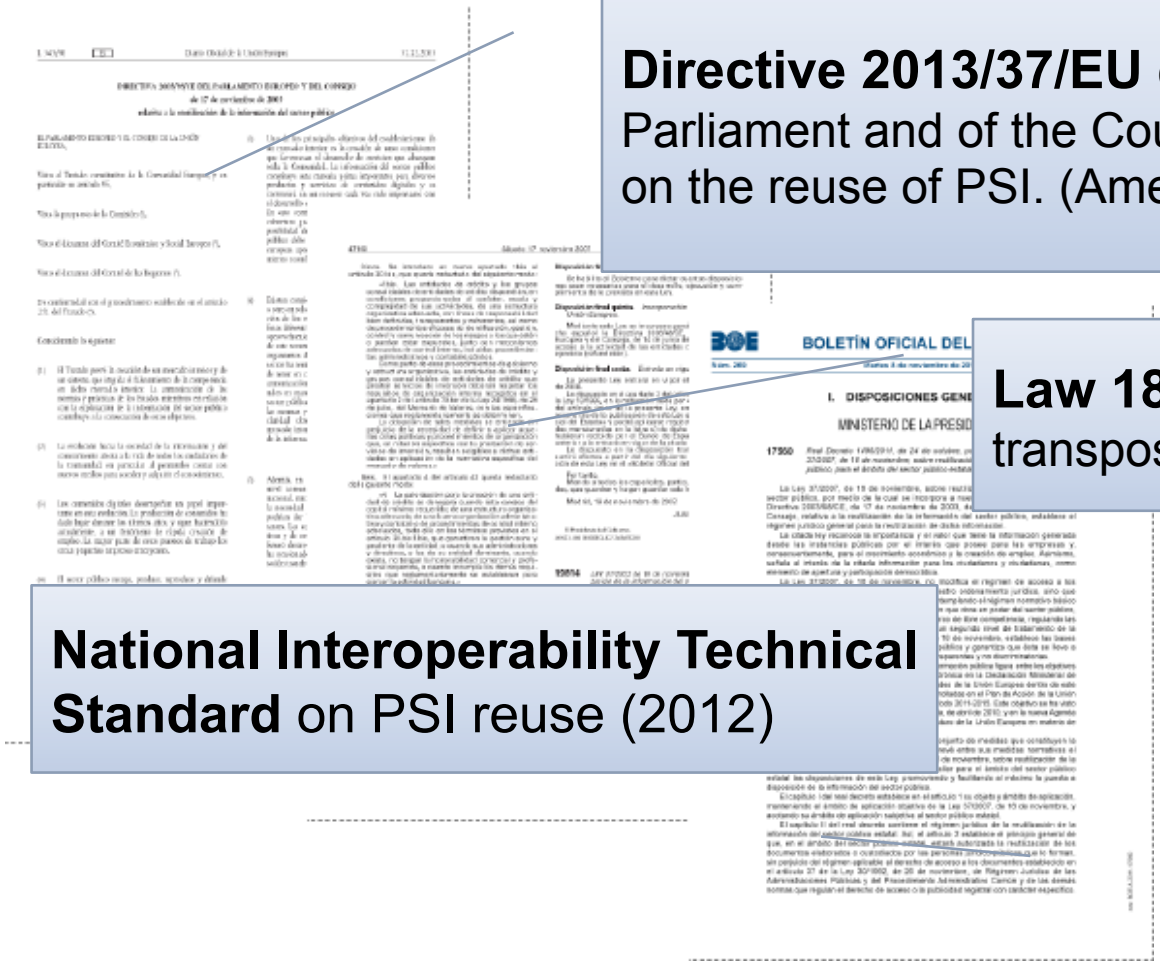
LEGAL BACKGROUND

LEGAL FRAMEWORK (I)

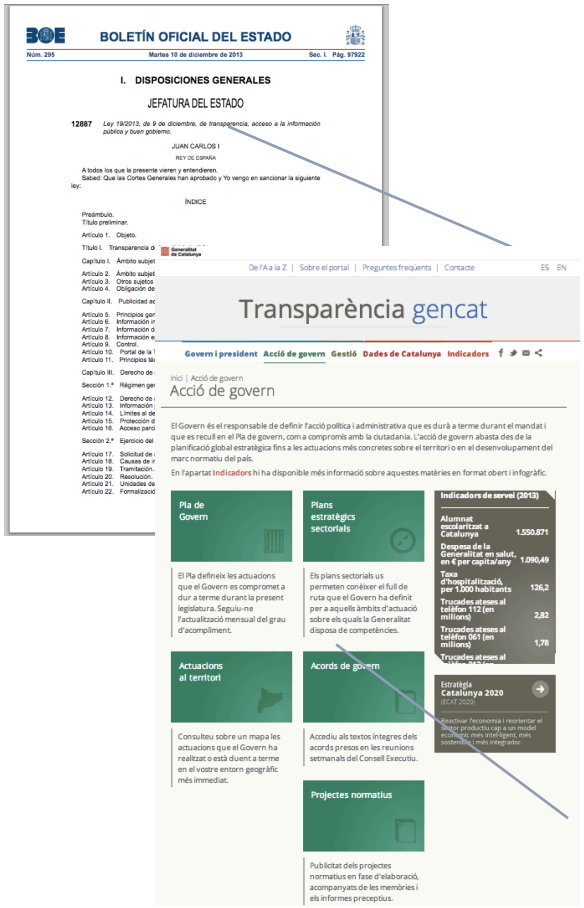


Directive 2013/37/EU of the European Parliament and of the Council of 26 June 2013 on the reuse of PSI. (Amending 2003/98/EC)

Law 18/2015 of 9th July 2015, transposing the Directive 2013/37/EU

National Interoperability Technical Standard on PSI reuse (2012)

LEGAL FRAMEWORK (II)



Law 19/2013 on transparency, information access and good governance

Various regional/local acts on transparency and/or PSI reuse

IN BRIEF

Every national-level public body had to:

- Appoint a **PSI Manager**
- Publish at least **4 datasets** as Open Data
- Index that data on datos.gob.es
- Implement the **Interoperability Technical Standard (ITS) on PSI reuse**

ITS ON PSI RE-USE

Based on W3C's DCAT and compliant with ISA's DCAT Application Profile for data portals in Europe

Technical guidelines for public bodies to implement Open Data strategies.

How to:

- **Select** information;
- **Identify** datasets, catalogues, portal on the Web
- **Describe metadata** on datasets (DCAT)
- **License** (with a model)
- **Publish and maintain** data catalogues
